Abstract writing: Limited to one page, single spaced, five paragraphs, summary writing

My abstract/essay focuses on an appropriate topic and uses supporting examples.

My abstract addresses the topic of “(Your topic, genetic disease, disorder), causes, treatment and current research”.

I have at least (3) specific examples of scientific research that support my central idea, and I describe the research and/or human trials.

My abstract contains one central idea, is organized, and is based on my references/resources.

My abstract shows an understanding of the topic and presents the material in an informative and engaging manner.

VOICE--The essay sounds like me, not an encyclopedia, existing website, or any of my references. This is original work created by me, in my own words.
